Saint-Astier Lime Paint Color Chart

Last Modified: July 15, 2020

Disclaimer:

For best results, set your device to maximum brightness. Only rely on hard samples. Many factors affect how images appear on your screen and how they print on your specific printer. It is suggested that you send us a sample or purchase the stock Lime Paint Swatch so that you may view each swatch individually or hold the tiles up to a building to determine a match. If you send us a sample we will call you, free of charge, to make a suggestion if one of our stock Lithomex colors is similar to the sample you send.
