

Safety Data Sheet

Ecologic™ Sand Mastic™

Product Name:		Ecologic™ Sand Mastic™			
Brand:		Ecologic™			
Recommended Use:		Structural Lime Mortar for Specialty Repointing			
Supplier's Details:		Lime Works.usPhone: 215-536-67063145 State RoadFax: 215-453-1310Telford, PA 18969Website: www.limeworks.us		-1310

Safety Data Sheet

Ecologic™ Sand Mastic™

SECTION 3 – COMPOSITION / INFORMATION ON INGREDIENTS		
CAS: 1305-62-0 RTECS: EW2800000	Calcium Hydroxide Skin Irrit. 2; Eye Dam. 1; STOT SE 3; Aquatic Acute 3; H315, H318, H335, H402	> 1%
CAS: 471-34-1 RTECS: FF9335000	Calcium Carbonate	> 1%
CAS: 1305-78-8 RTECS: EW3100000	Calcium Oxide Skin Irrit. 2; Eye Dam. 1; STOT SE 3; H315, H318, H335	> 1%
CAS: 14808-60-7 RTECS: VV7565000	Crystalline Silica Carc. 1A; STOT RE 1; H350, H372	> 1%
CAS: 1309-37-1 RTECS: NO7400000	Oxide Pigment Skin Irrit. 2; Eye Irrit. 2A; STOT SE 3; H315, H319, H335	> 1%

May also contain ~1 of less of Magnesium oxide, Potassium oxide, Sodium oxide, Ferric oxide, ... * May exceed the limit ...

SECTION 4 - F	FIRST AID MEASURES
Inhalation:	Remove source of contamination or have person move to fresh air. If not breathing, give artificial respiration. Obtain medical attention immediately.
Skin Contact:	Wash contaminated area with running water for at least 15-20 minutes, while removing contaminated clothing. Obtain medical attention. Launder contaminated clothing before re-use.
Eye Contact:	Immediately flush the contaminated eye(s) with gently flowing water for at least 15-20 minutes. Obtain medical attention.
Ingestion:	NEVER give anything by mouth if the person is rapidly losing consciousness, or is unconscious, or convulsing. Rinse mouth thoroughly with water. DO NOT INDUCE VOMITING. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Repeat administration of water. Obtain Medical attention immediately.

SECTION 5 – FIRE FIGHTING MEASURES			
Fire Hazards/Conditions of Flammability:	This product is not flammable or combustible		
Flash Point (Method):	Not Determined		
Lower Flammable Limit (% by volume):	Not Determined		
Upper Flammable Limit (% by volume):	Not Determined		
Sensitivity to Mechanical Impact:	Probably not sensitive.		
Sensitivity to Static Discharge:	Probably not sensitive.		
Auto-Ignition Temperature:	Not Determined		
Suitable Extinguishing Media:	Carbon dioxide, dry chemical powder, and appropriate foam for surrounding products.		
Special Fire-Fighting Procedures/Equipment:	During a fire, irritating/toxic smoke and fumes may be generated by surrounding products. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece.		
Hazardous Combustion Products:	Carbon oxides, other irritating fumes, and smoke generated by surrounding products		

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal Precautions:	Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. Remove all ignition sources. Remove or isolate flammable and combustible materials. All persons dealing with clean-up should wear the appropriate protective equipment (See section 8).
Environmental Precautions:	Confine spill, preventing it from entering sewer lines or waterways. Dispose of as per local, state, and federal regulations
Spill Response / Cleanup:	Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product Notify the appropriate authorities as required.

SECTION 7 – HANDLING AND STORAGE		
Safe Handling Procedures:	Before handling, it is very important that engineering controls are operating, and that protective equipment requirements, and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Handling equipment should be properly grounded. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dusts. Avoid contact with eyes, skin, and clothing. Avoid generating high concentrations of dusts. Keep away from incompatible materials such as strong oxidizing materials. Keep containers closed when not in use.	
Storage Requirements:	Store in a cool, dry, well-ventilated area out of direct sunlight. Store away from incompatible materials. Inspect all incoming containers to make sure they are properly labeled and not damaged. Storage area should be clearly identified, clear of obstruction, and accessible only to trained personnel. Inspect periodically for damage or leaks.	
Incompatible Materials:	STRONG OXIDIZING MATERIALS, strong acids, some metals.	

SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits: There is no available data for the product. See below for individual ingredient exposure limits.

Ingredient		OSHA PEL		ACGIH TLV	
	-	TWA	STEL	TWA	STEL
Calcium Hydroxide		15 mg/m₃	Not Determined	10 mg/m₃	Not Determined
Calcium Carbonate		15 mg/m₃ 5 mg/m₃ (resp.)*	Not Determined	10 mg/m₃ 5 mg/m₃ (resp.)*	Not Determined
Calcium Oxide		5 mg/m₃	Not Determined	2 mg/m₃	Not Determined
Crystalline Silica		10 mg/m _{3†} (resp.) %SiO ₂ +2	Not Determined	.1 mg/m _{3†} (resp.)	Not Determined
Oxide Pigment		5 mg/m₃	Not Determined	5 mg/m₃	Not Determined

* Respirable fraction.

** Crystalline silica is expected to be below 1%, but concentrations may vary with source material

⁺ The OSHA Permissible Exposure Limit (PEL) for Silicon Dioxide (SiO₂) is dependent upon the percentage of free silica in the dust and is calculated by a formula given.

Safety Data Sheet Ecologic[™] Sand Mastic[™]

Engineering Controls:	Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits.
Respiratory Protection:	Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirator if the exposure limits are unknown.
Protective Clothing/Equipment:	Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mist and dust from entering the eyes. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.
General Hygiene Considerations:	Avoid generating high concentrations of dusts. Avoid contact with skin and eyes. Avoid breathing dusts or mists. Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES				
Physical State, Color, Etc:	White to gray powder.	Upper / lower flammability or explosive limits:	Not Determined	
Odor:	Odorless	Vapor Pressure:	Not Determined	
Odor Threshold:	Not Determined	Vapor Density:	Not Determined	
pH:	~12.3	Relative Density:	Not Determined	
Melting / Freezing Point:	Not Determined	Solubility(ies):	Slightly in water	
Initial Boiling Point and Boiling Range:	Not Determined	Partition Coefficient: n-octanol/water:	Not Determined	
Flash Point:	Not Determined	Auto-Ignition Temperature:	Not Determined	
Evaporation Rate:	Not Determined	Decomposition Temperature:	Not Determined	
Flammability (solid, gas):	Not Determined	Viscosity:	Not Determined	

SECTION 10 – STABILITY AND REACTIVITY DATA		
Reactivity: Not Determined		
Chemical Stability: Stable under the recommended storage and handling conditions prescribed.		
Possibility of Hazardous Reactions: Hazardous polymerization will not occur.		
Conditions to Avoid: Incompatible materials (see Section 7).		
Incompatible Materials: Incompatible materials (see Section 7).		
Hazardous Decomposition Products: Hazardous combustion products (see Section 5).		

SECTION 11 -	TOXICOLOGICAL I	NFORMATION		
Routes of Exposure:		Eye contact, ingestion, inhalation, skin contact.		
Effects of Short-T	erm (Acute) Exposure:			
Eyes:	Direct eye contact matering, and pain.	ay cause moderate eye irritation or b	ourn. Symptoms may include redness, stinging,	
Ingestion:		irritation or burn to the mouth, throa headache, and other central nervou	t, and stomach. Symptoms may include dizziness, is system effects.	
Inhalation:		May cause irritation or burn to the nose, throat, and respiratory tract. Symptoms may include burning sensation, sore throat, runny nose, coughing, wheezing, shortness of breath, and difficulty breathing.		
Skin:	Direct skin contact ma	ay cause moderate to severe irritation	on or burn.	
Effects of Long-Te	erm (Chronic) Exposure	:		
	fibrotic changes and i chest expansion, and pain, and total incapa lung tissue. Crystallin "sufficient evidence" of	Prolonged inhalation of crystalline silica may result in silicosis, a disabling pulmonary fibrosis characterized by fibrotic changes and miliary nodules in the lungs, a dry cough, shortness of breath, emphysema, decreased chest expansion, and increased susceptibility to tuberculosis. In advanced stages, loss of appetite, pleuritic pain, and total incapacity to work. Advanced silicosis may result in death due to cardiac failure or destruction of lung tissue. Crystalline silica is classified as group 1 "known to be carcinogenic to humans" by IARC and "sufficient evidence" of carcinogenicity by the NTP. – Based on Human Evidence		
Other Important Hazards:		Not Determined		
Numerical Measu	res of Toxicity:			
Ingredient		CAS # and RTECS #	LD ₅₀ (route, species)	
Calcium Hydroxide		CAS: 1305-62-0 RTECS: EW2800000	7,340 mg/kg Oral, Rat	
Calcium Carbonate		CAS: 471-34-1 RTECS: FF9335000	6,450 mg/kg Oral, Rat	
Calcium Oxide		CAS: 1305-78-8 RTECS: EW3100000	Not Determined	
Crystalline Silica		CAS: 14808-60-7 RTECS: VV7565000	Not Determined	
		CAS: 1309-37-1 RTECS: NO7400000	Not Determined	

SECTION 12 – ECOLOGICAL INFORMATION		
Ecotoxicity:	There is no available data on the product itself.	
Persistence and Degradability: Not Determined		
Bioaccumulative Potential: Not Determined		
Mobility in the Soil: Not Determined		
Other Adverse Effects: Not Determined		

SECTION 13 – WASTE DISPOSAL

Disposal must be in accordance with National or Local legislation and directives. Bags are exclusively for containing the product and must not be utilized for other use. Dispose of the contents and bags at a point of refuse collection. Harden the product before disposal by wetting it. Bags should be totally emptied.

SECTION 14 – TRANSPORT	- TRANSPORTATION INFORMATION		
UN Number	Non-Regulated Material	Environmental Hazards	Not Applicable
UN Proper Shipping Name	Non-Regulated Material	Transport in Bulk	Not Applicable
Transport Hazard Class(es)	Non-Regulated Material	Special Precautions	Not Applicable
Packing Group	Non-Regulated Material		

SECTION 15 - R	REGULATORY INF	ORMATION			
OSHA Information:			ulated according to O all the information rec		
TSCA Information:		The ingredients in this product are listed on the TSCA.			
National Fire Protect	ction Association (NF	PA):			
HEALTH: 3	FLAMMABILITY: 0	INSTABILITY: 0	SPECIAL HAZARDS: Refer to Section 1 & 3		
HAZARD SCALE:	0 = Minimal	1 = Slight	2 = Moderate	3 = Serious	4 = Severe
New Jersey Labelin	g Requirements:	Ingredients to be d	isclosed on product la	beling: Refer to Section	on 3.
California Propositi	ion 65:	This product conta cancer or other rep		known to the State of	^c California to cause
